PROFILE

Senior Software Engineer and ERP Architect with **11+ years** building enterprise systems for leather, textile, energy and government operations. I design and ship ERP platforms end to end — HRMS & Payroll, Production/MES, Inventory, Finance & Costing — on ASP.NET Core, Laravel, Next.js and SQL Server. I led an **Epicor Kinetic ERP implementation**, delivered an **18-module custom ERP suite** that is live in production, and built **MaatDrive**, a multi-tenant SaaS for the German market. Now extending that into AI agents and workflow automation.

EXPERIENCE

Sr. Officer — Software & ERP

Apr 2021 — Present

Ventura Leatherware Mfy (BD) Ltd. · Uttara EPZ, Rangpur · Leather goods manufacturing

- Lead **ERP architecture and full-cycle development** for the plant — requirements through design, build, rollout and support.
- Led the **Epicor Kinetic ERP implementation**: customisation with BAQ/BPM, module setup, data migration and user training.
- Delivered an **18-module custom ERP suite** — Inventory, Assets, Accounts, TPM, MES, Production, Internal Audit, Gate Pass, eSignature and more — **all live**.
- Built **VLM Core**, a live production dashboard that **replaced 60+ minutes of daily Excel reporting**.
- Built in-house platforms on the same API layer: an **Android MDM** system, the **VOS Apps** employee super-app (11+ services) and a **biometric ESS kiosk**.
- Designed the **RESTful API layer** (ASP.NET Core, Laravel) and the SQL Server data model behind them.

ASP.NET Core · Laravel · Vue.js · React · Node.js · SQL Server · Epicor

Sr. Software Engineer

Jun 2021 — Jan 2025

Constant Ads · Austria (remote)

- Back-end development and application logic in **PHP Laravel and CodeIgniter** for internal and client-facing products.
- Set the **Laravel project structure and team conventions**, ran code reviews and mentored other developers on the approach.
- Front-end delivery across Vue.js, React, jQuery/AJAX and Bootstrap.

Officer — Software Development

Jul 2017 — Apr 2021

Ventura Leatherware Mfy (BD) Ltd. · Nilphamari

- Database design and development across the plant systems on **SQL Server and MySQL**, plus day-to-day database support.
- Built the **management reporting layer**, including **Power BI** analysis used by the management team.

Programmer

Jan 2015 — Jun 2017

Promiti Computer and Networks · Dhanmondi, Dhaka

- Analysis, database design, coding and client software implementation as a database engineer and programmer; web development.
