

Md. Al Amin Miah

Senior Software Engineer | ERP Architect | Full-Stack Developer

Address: Rangpur Adarhsapara, Rangpur.

Mobile: +8801712410603

Date of Birth: 05th July, 1995

E-mail: mdalaminmiah4625@gmail.com

GitHub: github.com/mdalaminmiah

Linkedin: linkedin.com/in/mdalaminmiah/

Portfolio: mdalaminmiah.github.io/alamin

Career Objective:

To pursue a Senior Software Engineer or Technical Lead position in a forward-thinking organization where I can leverage my expertise in full-stack development, scalable system architecture, and team leadership to deliver impactful solutions. I am committed to working with honesty, integrity, and accountability, striving for excellence in alignment with ethical and Islamic values.

Academic Qualification:

- B.Sc. in Computer Science and Engineering from Daffodil International University, 2014 to 2018 with CGPA 3.21 out of 4.00
- HSC in Science from Lions School and College (Rangpur), under Dinajpur Board, 2012 with GPA 4.20 out of 5.00
- SSC in Science from Shukurer Hat High School (Rangpur), under Dinajpur Board, 2010 with GPA 4.13 out of 5.00

Technical Skills:

Languages	C# Java JavaScript TypeScript
Backend	ASP.NET Core ASP.NET MVC Web API LINQ Dapper ORM ADO.NET Async Programming Node.js Express.js CodeIgniter RESTful API Design & Versioning
Frontend	React.js Next.js Redux AngularJS JavaScript (ES6+) jQuery HTML5 CSS3 Bootstrap Tailwind CSS DaisyUI HeroUI Syncfusion UI Kendo UI Easy UI
Databases	MS SQL Server s MySQL PostgreSQL MongoDB T-SQL Stored Procedures Views Functions Triggers Indexes Schema Design Query Optimization
Architecture	Clean Architecture Microservices CQRS N-Tier OOP Design Patterns REST API JWT Auth MediatR Autofac UML Domain-Driven Design
Reporting & BI	SSRS / RDLC iTextSharp (PDF) EPPlus (Excel) Crystal Reports Power BI Chart.js ECharts Morris.js Recharts
DevOps & Cloud	Git GitHub GitLab Bitbucket Azure DevOps Docker Docker Compose Nginx AWS (EC2, S3, IAM) GitHub Actions (CI/CD) IIS Vercel
Tools	MeisterTask Microsoft ToDo Jira Visual Studio VS Code Postman SQL Server Management Studio Android Studio
OS & Platforms	Windows (Server & Desktop) Linux Ubuntu Electron (Cross-platform Desktop)

Training & Certifications:

1. **Next Level AI-Driven Software Engineering Bootcamp | Programming Hero | Level 02**
 - a) **Focus:** *Advanced Full-Stack Engineering with AI, Cloud & DevOps*
 - b) **Technologies:** *TypeScript (Basic & Advanced), Node.js, Express.js, PostgreSQL, Prisma ORM, Next.js, Next.js Authentication (JWT, Sessions), Docker, Docker Compose, Nginx (Reverse Proxy & Load Balancing), AWS (EC2, S3, IAM), GitHub Actions (CI/CD), AI/ML/LLM Integration, RAG System, Vector Embeddings (pgvector), Semantic Search, Unit & Integration Testing (Jest, Supertest), Software Architecture & Design Patterns.*
 - c) **Duration:** *April 2026 – October 2026 (In Progress)*
2. **Complete Web Development Course | Programming Hero | Level 01**
 - a) **Focus:** *Full-Stack Web Development (MERN & Next.js)*
 - b) **Technologies:** *React.js, React Router, Context Api, Next.js, Tailwind CSS, DaisyUI, HeroUI, Express.js, MongoDB, JWT, Node.js.*
 - c) **Duration:** *January – Jun 2026 (In Progress)*
3. **AI Agent Mastery: Build, Automate & Scale | Hablu Programmer**
 - d) **Focus:** *Building, automating, and scaling AI agents using no-code, low-code, and code-based tools from beginner to production-ready deployment.*
 - e) **Technologies:** *n8n, Zapier, Make.com, Langflow, LangChain, GoHighLevel, Google Workspace Studio AI, OpenAI API, Claude AI, Vercel, Render, DigitalOcean, REST API & Webhook Integration, Prompt Engineering, RAG (Retrieval-Augmented Generation), Voice AI.*
 - f) **Duration:** *June 2026 – November 2026 (In Progress)*
4. **Training for Mobile Application Development (Android) | ICT Ministry**
 - a) **Focus:** *Native Android App Development*
 - b) **Technologies:** *Java, Android Studio, XML Layout, SQLite, REST API Integration, Google Play Services.*
 - c) **Duration:** *May – November 2018*
5. **Training for App Monetization & App Management Including Marketing | ICT Ministry**
 - a) **Focus:** *Mobile App Business, Monetization Strategy & Digital Marketing*
 - b) **Technologies:** *Google AdMob, Google Play Console, Firebase, App Analytics, Social Media Marketing, SEO Basics.*
 - c) **Duration:** *May – August 2018*
6. **Training for Web Application Development Dot Net | BITM**
 - a) **Focus:** *Web Application Development using Microsoft .NET*
 - b) **Technologies:** *ASP.NET MVC, C#, ADO.NET, Entity Framework, SQL Server, HTML, CSS, JavaScript, Bootstrap.*
 - c) **Duration:** *July – November 2017*

Employment History (1):

Jun 2024 – Running (1 yr. 11 Month)

- **Position:** **Senior Software Engineer** in the department of IT
- **Employer:** **Ventura Leatherwear Mfy (BD) Ltd.** (Factory: Plot: 15-27, Sector# 02, & Plot: 23, 44 Sector# 03, Utra EPZ, Nilphamari – Bangladesh)
- **Responsibilities:**
 - a) Designed, developed, and maintained enterprise-level HRMS, Production, and Finance ERP applications using ASP.NET Core and PHP stacks, supporting factory operations across 63 production lines and 10 workshops.
 - b) Architected scalable backend services using ASP.NET Core, C#, Web API, Laravel, and CodeIgniter, applying SOLID principles, Dapper ORM, LINQ, and ADO.NET for clean, maintainable codebases.

- c) Built modular application architecture using Microservices and CQRS patterns with Autofac for DI and MediatR for decoupled, testable service communication.
- d) Engineered and optimized relational and NoSQL databases (SQL Server, MySQL, PostgreSQL, MongoDB) schema design, advanced stored procedures, indexing strategies, and query performance tuning.
- e) Architected VLM Core a cross-platform Electron + React 19 + Vite real-time production dashboard that replaced 60+ minutes of manual Excel reporting with near-instant live data from Chokidar file-watching and MSSQL stored procedures.
- f) Designed dynamic reporting with SSRS/RDLC; automated PDF and Excel document generation via iTextSharp and EPPlus across Finance, HR, and Production modules.
- g) Developed interactive operational intelligence dashboards using Power BI, Chart.js, ECharts, and Morris.js enabling data-driven decision-making for senior management.
- h) Maintained collaborative codebases across GitHub, GitLab, Bitbucket, and Azure DevOps following Git best practices: feature branching, PR reviews, and conflict resolution.
- i) Delivered on-site and remote support to cross-functional teams, ensuring successful ERP rollout, user training, and system maintenance.
- **Projects Contributed:** HRMS | EkClick | Paper Free | Automation | EPICOR ERP | Production & Finance ERP | Custom Dashboard (Using Electron | React JS | Next JS Based on xlsx | MSQl | MySql)

Employment History (2):

April 2022 – Jun 2024 (2 yr. 1 Month)

- **Position:** Sr. Programmer in the department of ITD
- **Employer:** Epyllion Group. (Head Office: H. No 227/A Nina Kabbo (Level-10; Level-12, Bir Uttam Mir Shawkat Sarak, Dhaka 1208)
- **Responsibilities:**
 - a) Analyzed business requirements and architected software solutions aligned with operational specifications.
 - b) Developed and maintained robust database structures including tables, views, stored procedures, and functions.
 - c) Created and optimized custom reports through tailored program and script development.
 - d) Delivered post-deployment support including bug resolution and feature enhancements based on QC and end-user feedback.
 - e) Stayed current with emerging technologies and applied optimal solutions to evolving business challenges.
 - f) Resolved technical issues through phone support, remote assistance, or on-site visits.
 - g) Modified databases and application components in response to changing business requirements.
 - h) Traveled to company branches across Bangladesh to support system rollout and maintenance.
- **Projects Contributed:** Garments ERP | Textile ERP | Accessories ERP | Expense Management ERP | Accounts & Finance ERP | Supplier Portal | Sailor ERP

Employment History (3):

September 2019 – April 2022 (2 yr. 7 Month)

- **Position:** Senior Software Developer in the department of Development & Research (DDR)
- **Employer:** Urmee Knitwear Limited. (Head Office: Block G, House 35, Road 7, Banani, Dhaka 1213, Bangladesh)
- **Responsibilities:**
 - a) Led analysis, architecture design, and full-cycle software application development based on provided requirements.
 - b) Designed and implemented high-quality database solutions including SQL tables, views, stored procedures, and functions.
 - c) Developed programs and scripts for automated report generation across multiple business domains.

- d) Conducted white-box testing to validate program logic and ensure functional correctness.
- e) Managed post-deployment enhancements and bug fixes based on QC and support feedback.
- f) Evaluated and adopted the latest technologies to improve system performance and maintainability.
- g) Resolved technical complaints via phone, remote support, or direct site visits.
- h) Modified databases and application modules to meet changing operational needs.
- i) Traveled to company branches across Bangladesh as required for deployment and support.
- **Projects Contributed:** Dyeing, Knitting & Printing ERP | Accounts & Finance ERP | Digital Cheque Management | Expense Management ERP | HRMS

Employment History (4):

March-May 2019 (3 month)

- **Position:** **Programmer** in the department of Development & Research (DDR)
- **Employer:** **Infocrat Solutions Ltd.** (Rupayan Shelford, 10th Floor, 23/6 Mirpur Rd, Dhaka 1207)
- **Responsibilities:**
 - a) Developed software application programs according to provided design specifications.
 - b) Performed database development including SQL tables, views, stored procedures, and functions.
 - c) Wrote programs and scripts for report generation.
 - d) Conducted white-box testing to verify program functionality.
 - e) Performed post-deployment enhancements and bug fixes per QC and support feedback.
 - f) Stayed updated with the latest industry technologies.
- **Projects Contributed:** Garments ERP | Textile ERP | Accessories ERP | Expense Management ERP | Accounts & Finance ERP | Bangladesh Eye Hospital ERP

Employment History (5):

May-August 2018 (4 month)

- **Position:** **Student Prefect** (Teaching)
- **Employer:** **Daffodil International University (DIU).** (102, Shukrabad, Mirpur Road, Dhanmondi, Dhaka 1207, Bangladesh)
- **Course:** Operating System (OS)
- **Responsibilities:**
 - a) Assisted in teaching Operating Systems (OS) courses.
 - b) Supported course administration and ensured a positive learning environment.
 - c) Helped coordinate student activities and addressed queries related to the curriculum.
 - d) Promoted and encouraged student participation and engagement in academic discussions.

Some Others Key Projects:

- **VLM Core — Enterprise ERP Production Dashboard** | *Architect & Lead Developer*
Cross-platform desktop ERP dashboard (Electron + React 19 + Vite) replacing 60+ min of manual Excel reporting with live factory dashboards across 8 workshops and 48+ production lines.
 A real-time, multi-module production monitoring dashboard built as a cross-platform desktop app using Electron, React 19, and Vite. Designed to replace manual Excel reporting across 10 workshops and 63+ production lines, providing live synchronization with Excel files and MSSQL data sources.
 - Architected a multi-source data engine supporting both live Excel file-watching (Chokidar) and MSSQL stored procedure execution via a unified IPC bridge
 - Built 8 interactive Recharts/ECharts visualizations including plan-vs-actual efficiency line charts, capacity bar charts, OT rate trackers, and a hierarchical production tree with collapse/expand behavior
 - Implemented a custom theme system (light/dark) with persistent localStorage state, CSS variable-driven chart colors, and real-time grid background animation
 - Delivered a collapsible sidebar navigation, multi-level tab routing (React Router v7), and lazy-loaded page chunks to keep initial load under 2 seconds

- Reduced reporting time from 60+ minutes manual Excel work to near-instant live dashboard refresh on file change

Tech Stack: *React 19 | Vite 8 | Electron 41 | React Router v7 | Recharts | ECharts | Tailwind CSS v4 | DaisyUI | Chokidar | MSSQL | ExcelJS | Lucide React*

- **AI-Driven Smart Meeting Room Booking System** | *Architect & Lead Developer*

Android-based smart room display solution with IP synchronization, real-time schedule visibility, and hardened kiosk security across enterprise meeting rooms.

A fully Android-based room display application integrated with an existing Meeting Room Booking System, providing live schedule synchronization, status indicators, and secure kiosk-mode operation.

Deployed on wall-mounted screens outside meeting rooms to eliminate manual room-status confusion.

- Architected IP-based real-time synchronization between the central booking system and distributed room display devices, enabling instant schedule updates across all rooms
- Implemented a tri-state visual indicator system (green for available, red for ongoing, night mode 7:30 PM–7:30 AM) with auto-resume logic and active schedule highlighting
- Built an interactive schedule viewer with a Schedule Tab for ongoing and upcoming meetings and a Meeting Details panel showing agenda, attendees, and time — accessible with a single tap
- Delivered a hardened kiosk security layer: app-close prevention, admin PIN access via 7-tap gesture, incorrect-password rejection, IT-gated uninstall restriction, and notification panel lockdown
- Configured auto-relaunch on close (3-minute timer) and auto-start on device reboot to ensure 100% uptime without manual intervention
- Provided Admin Panel for remote IP configuration, device management, and sync status monitoring across all deployed room units

Tech Stack: *Android SDK | Java | IP Synchronization | REST API Integration | Android Services | Kiosk Mode Architecture | Admin Panel Integration | Real-Time Status Tracking | Device Management | SQL Server*

- **KeenKeeper — Personal Relationship Management App** | *Architect & Lead Developer*

Full-stack Next.js 16 web app for managing personal connections — smart contact-goal tracking, interaction logging, timeline, and analytics charts — deployed on Vercel.

A full-stack Next.js 16 web application for managing personal friendships with smart contact-goal tracking, interaction logging, a chronological timeline, and analytics charts. Built with server-side rendering, API routes, and client-side state management using React Context.

- Built Next.js App Router architecture with RSC, dynamic routing (/friends/[id]), and a REST API layer (GET /api/friends) returning JSON friend data
- Designed a custom context-based state engine (TimelineProvider) with localStorage hydration, UUID generation, and optimistic async entry creation
- Implemented Recharts PieChart analytics with real-time data derived from logged interactions (call, text, video, email), updating on every new timeline entry
- Delivered a Quick Check-In component with 4 interaction modes, toast notifications (react-toastify), and callback memorization via useCallback for performance
- Applied Tailwind CSS v4 + DaisyUI with a fully responsive layout, custom status badge system (on-track / almost due / overdue), and 3D hover card effects

Tech Stack: *Next.js 16 | React 19 | App Router | React Context | Recharts | Tailwind | CSS v4 | DaisyUI | React Toastify | Next/Image | Vercel*

- **Knitting, Dyeing & Printing ERP & HRMS** | *Architect & Lead Full-Stack Developer*

Enterprise-grade industrial ERP and HR management suite for high-volume textile manufacturing, covering inventory, production, accounts, commercial, and HR functions.

A robust, enterprise-grade industrial ERP and HR management suite designed for high-volume textile manufacturing environments.

- System Architecture: Engineered high-availability N-Tier Micro-Architecture using ASP.NET Core, ensuring clean separation of concerns between data access, business logic, and presentation layers.

- **Complex Frontend Logic:** Developed a high-performance UI using AngularJS, featuring custom directives and services to handle complex industrial data entry and real-time validation via AJAX.
- **Database Management:** Designed and optimized relational schemas in MS SQL Server (2014/2019), handling large-scale datasets for production tracking, chemical inventory, and employee payroll.
- **Automated Reporting:** Built a comprehensive document generation engine utilizing iTextSharp and Crystal Reports for precision PDF output, and EPPlus for automated, multi-sheet Excel financial spreadsheets.
- **HRM Integration:** Integrated a full-scale Human Resource Management module, streamlining attendance, payroll processing, and production-based incentive calculations.

Tech Stack: *ASP.NET Core | C# | MS SQL Server | AngularJS | AJAX | iTextSharp | Crystal Reports | EPPlus | Custom JS Libraries.*

Key Proficiencies:

- | | | |
|--------------------------------|--------------------------|----------------------|
| • Reporting & Documentation | • Maintenance | • Project Management |
| • Communication & Coordination | • Team Lead & Monitoring | • People Management |
| • Technical Solution | • Innovative Ideas | • Computer Skills |
| • Event Management | | |

Extra curriculum Activities:

- Organize 02 seminar from the University Programming Club.
- Arranged different programming group and work together.
- Team Leader in University Final Year Project on Data Mining & Research.
- Member of Young Bangla, BASIS Student Forum, Google Developer Group Dhaka, Bangladesh Innovation Forum, Bangladesh Robotics Foundation.

Others Skill:

Languages	Bangla (Native) English (Fluent Professional & Academic) Japanese (Elementary Hiragana & Katakana)
Community	Young Bangla BASIS Student Forum Google Developer Group Dhaka Bangladesh Innovation Forum Bangladesh Robotics Foundation
Soft Skills	Technical Leadership Team Management & Mentoring Agile / SDLC Stakeholder Communication Problem-Solving Self-Motivated & Continuous Learner
Interests	Traveling Reading (Technology & Business) Music Sports
CSR	Regular blood donor Raised funds for flood-affected communities in Bangladesh
